

CHISAGO LAKESIDE ELEMENTARY SCHOOL

RAIN GARDENS

Five rain gardens were installed on the property of Lakeside Elementary School in 2009. Four of these gardens are in front of the school and are visible from the main parking lot.

The fifth rain garden is behind should not be visited without permission.

The rain gardens capture runoff water from the parking lot, roadway, and school roof. This helps soak in and filter water before it reaches Little Green Lake, which is located just behind the school.

The gardens are maintained by the school staff and students and are used as an outdoor classroom for students.

Partners:

Chisago Lakes LID
Great River
Greening
Chisago SWCD

Targeted Water:

Little Green Lake

Completion Date:

September 2009

May I Visit?

Yes – The gardens are located in front of the building – please do not visit the project behind the school without permission from the school.
